Roan Creek Toll Road, 5ME924, DeBeque Canyon, CO

OR... Italian Railroad Workers of the Western Slope

-Nicole Inman

Roan Creek Toll Road, 5ME924

• In 2016, DARG received a grant from History Colorado State Historical Fund to record the extant portions of the Roan Creek Toll Road.

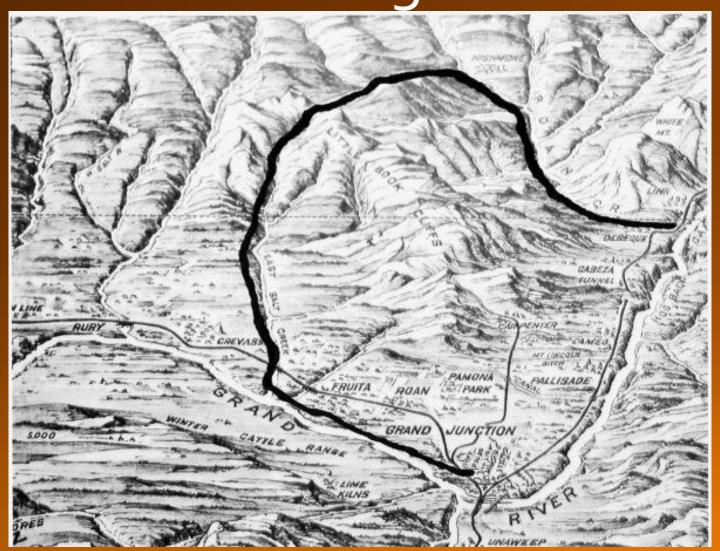

This resulted in 2.5 miles of newly recorded roadway.

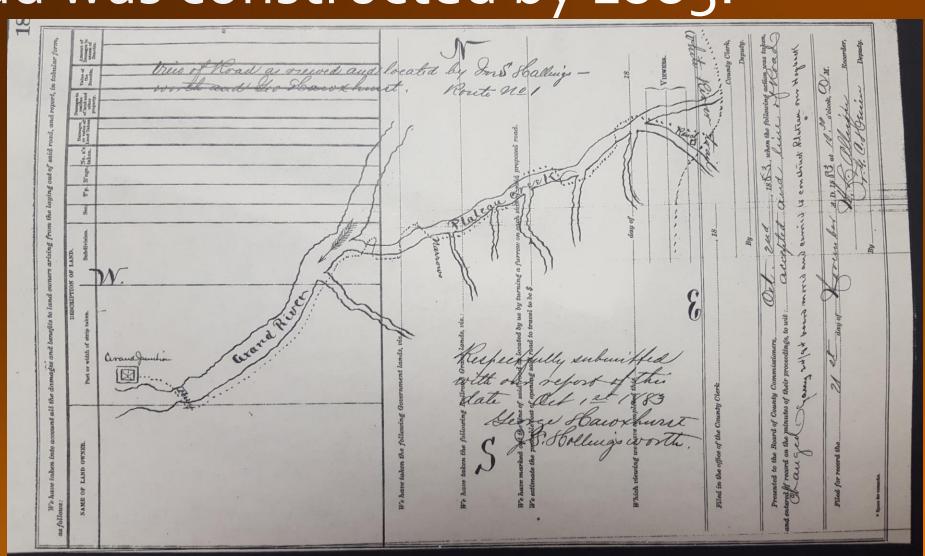

The toll road was the first road system through DeBeque Canyon

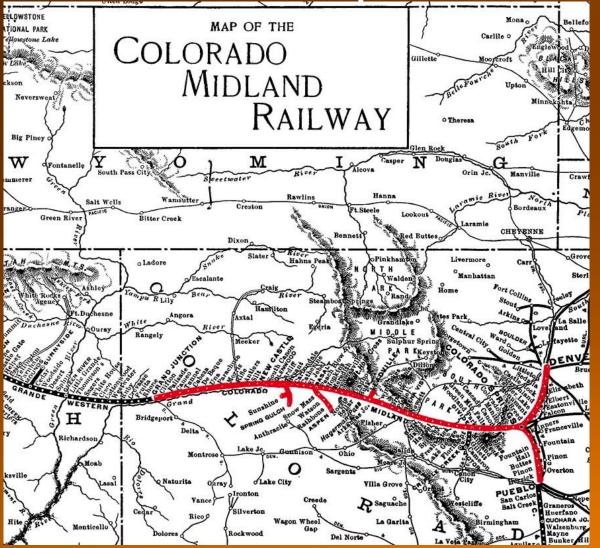

Previously, roads traveled through Rapid Creek or through Salt Creek.

Henry Rhone's takes the credit and the road was constructed by 1885.

By 1889, The D&RG partnered with Colorado Midland to purchase the ROW

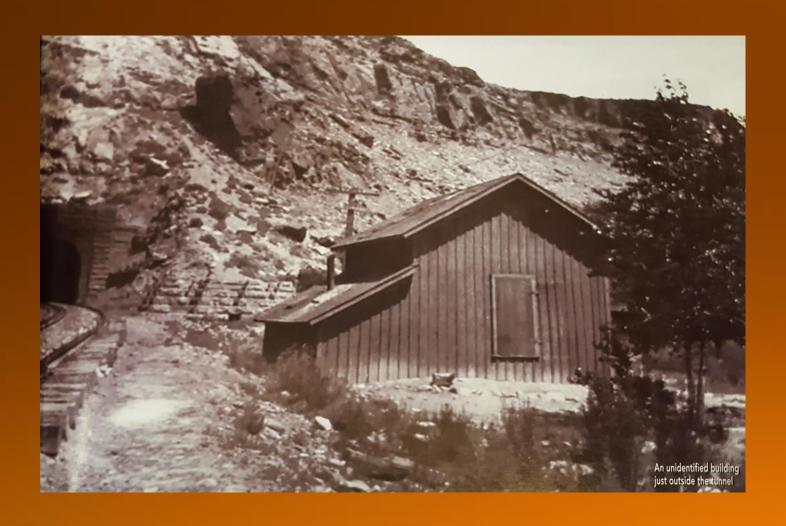

In addition to the toll road, other sites were recorded as they were encountered. Segments of a transmission line...

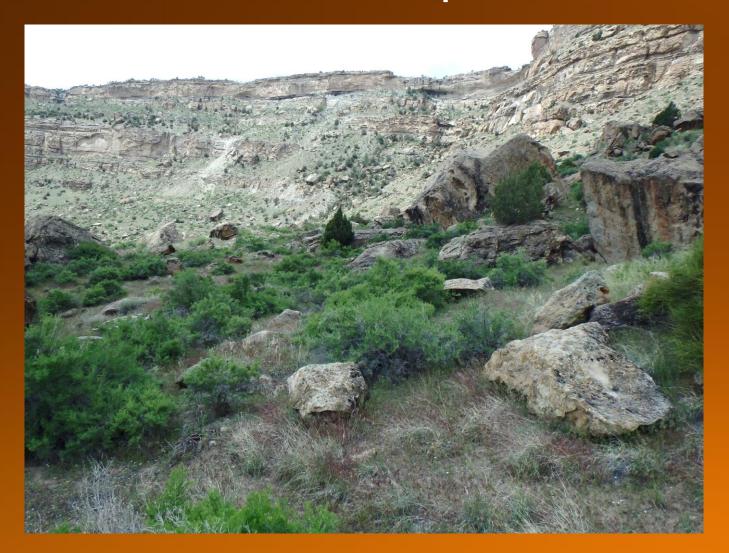

The last remains of a homestead...

Homestead...

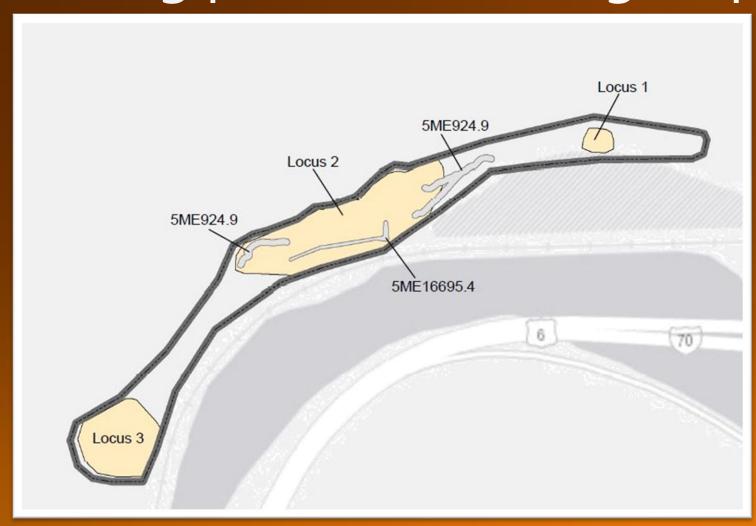

But most impressive was site 5ME21641, an historic sheltered camp.

Numerous shelters, thermal features, and a sparse scatter of artifacts were recorded.

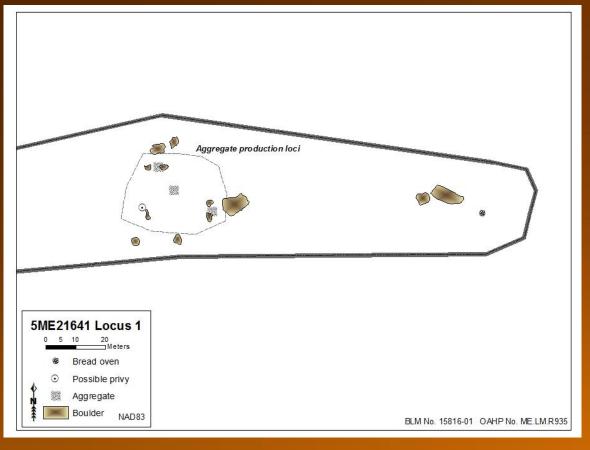

Three distinct loci, with clusters within each forming possible social groups

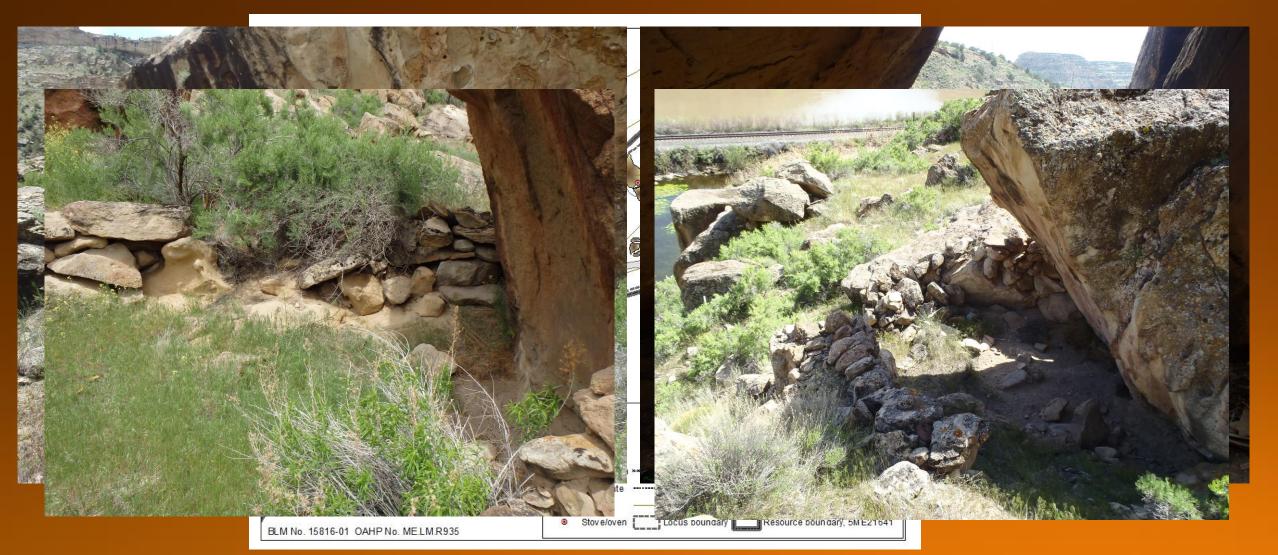

Locus 1 still had the clearest evidence of

rock blasting.

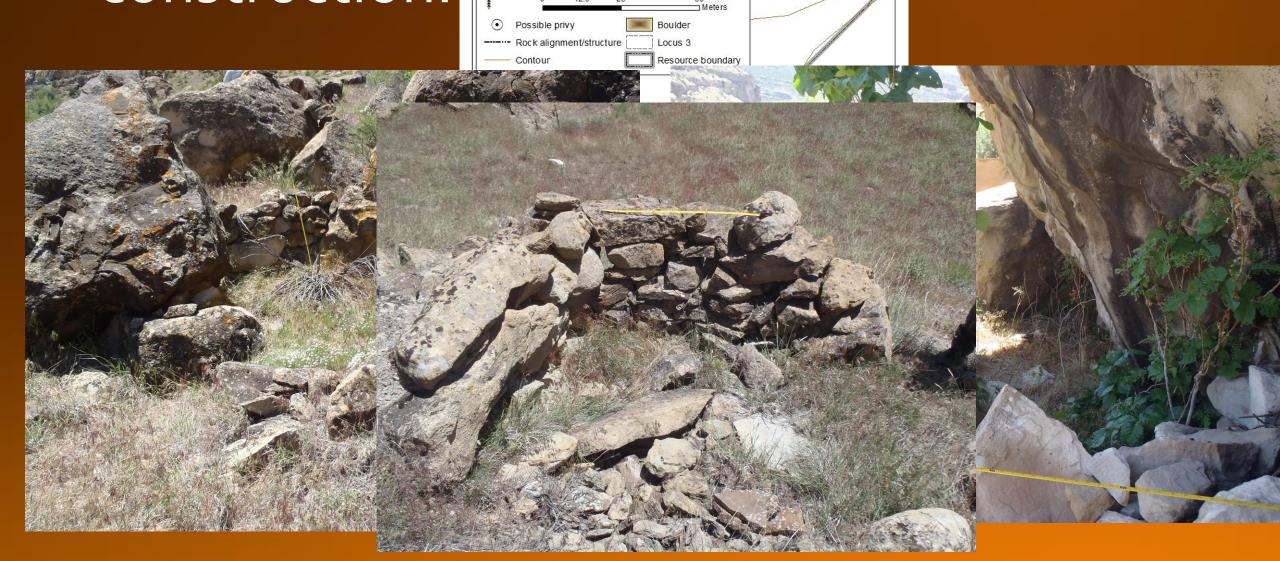

Locus 2 had the largest number of habitation features.

Locus 3 had several features of unusual construction.
